

**Pranda Jewelry Public Company Limited and its subsidiaries**

**Notes to interim consolidated financial statements**

**For the three-month periods ended 31 March 2021**

**1. General information**

**1.1 Corporate information**

Pranda Jewelry Public Company Limited (“the Company”) is a public company incorporated and domiciled in Thailand. The Company is principally engaged in the manufacture and distribution of jewelry and its registered address is 28 Soi Bangna-Trad 28, Bangna Tai Subdistrict, Bangna District, Bangkok. The Company has factories located in Bangkok and Nakhonratchasima.

**1.2 Coronavirus disease 2019 Pandemic**

The Coronavirus disease 2019 pandemic situation is currently continued to significantly affects the Group’s business activities in terms of goods distribution, and this is significantly impacting the Group’s financial position, operating results, and cash flows at present, including compliance with debt covenants, and is expected to do so in the future. The Group’s management has continuously monitored ongoing developments and assessed the financial impact in respect of the valuation of assets, provisions and contingent liabilities, and has used estimates and judgement in respect of various issues as the situation has evolved.

**1.3 Basis of preparation of interim financial statements**

These interim financial statements have been prepared in accordance with Thai Accounting Standards No. 34 Interim Financial Reporting, with the Company choosing to present condensed interim financial statements. However, the Company has presented the statements of financial position, income statement, comprehensive income, changes in shareholders’ equity and cash flows in the same format as that used for the annual financial statements.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language interim financial statements.

#### **1.4 Basis of consolidation**

These interim consolidated financial statements include the financial statements of the Group and have been prepared on the same basis as that applied for the consolidated financial statements for the year ended 31 December 2020. There were no changes in the composition of the Group during the current period.

#### **1.5 New financial reporting standards**

##### **a) Financial reporting standards that became effective in the current period**

During the period, the Group has adopted the revised financial reporting standards and interpretations which are effective for fiscal years beginning on or after 1 January 2021. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users of the standards.

The adoption of these financial reporting standards does not have any significant impact on the Group's financial statements.

Furthermore, the Group elected to adopt the amendments to TFRS 16 Leases relating to COVID-19 related rent concessions. These amendments provide a practical expedient that permits a lessee to not assess whether rent concessions are lease modifications. The practical expedient applies only to rent concessions occurring as a direct consequence of the COVID-19 pandemic and only if all of the conditions are met, i.e., the change in lease payments results in a revised consideration for the lease that is substantially the same as, or less than, the consideration for the lease preceding the change; any reduction in lease payments affects only payments originally due on or before 30 June 2022; and there is no substantive change to other terms and conditions of the lease.

The Group apply the practical expedient all to rent concessions that meet the above conditions and the impact of this application, amounting to Baht 1.8 million (The Company only: None), due to changes in lease payments resulting from rent concessions, was recognised in profit or loss for the three-month period ended 31 March 2021. There was no impact on the opening balance of retained earnings.

**b) Financial reporting standards that became effective for fiscal years beginning on or after 1 January 2022**

The Federation of Accounting Professions issued amendments to Thai Financial Reporting Standard 16 Leases that provide temporary exemptions from the impact of interest rate benchmark reform for a lessee, provided that all specified conditions are to be met.

The management of the Group believes that adoption of these amendments will not have any significant impact on the Group's financial statements.

**1.6 Significant accounting policies**

The interim financial statements are prepared by using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2020.

**2. Related party transactions**

During the periods, the Group had significant business transactions with related parties. Such transactions, which are summarised below, arose in the ordinary course of business and were concluded on commercial terms and bases agreed upon between the Company and those related parties.
